

ARIBAH ARMIN

aribaharmin@gmail.com | +91 8617782726 | West Bengal, India

SUMMARY

Pre-final-year Computer Science and Engineering (Gaming Specialization) undergraduate with strong proficiency in C#, Python, C++, web development, and game development. Experienced in building 2D/3D games using Unity, implementing VR features, and developing full-stack and AI-based applications. Passionate about game design, graphic design, and emerging technologies, including AI and Machine Learning. Eager to leverage technical expertise and creative problem-solving skills to contribute effectively in dynamic tech-driven environments.

WORK EXPERIENCE

Graphic Designer, CollegeTips.in, Bhopal

April 2025 — May 2025

- Designed Digital Contents.
- Made Animations on various topics.
- Applied 3D designing to promotional content.
- Implemented figma on webpage designs.

Full Stack Developer, Imarticus, Remote

May 2025 — Jun 2025

- Implemented a console-based Java application called Campus Course & Records Manager (CCRM) that lets an institute manage: Students, Courses, Grades & Transcripts and File Utilities.
- Designed responsive UI using HTML, CSS, and JavaScript.
- Worked with frameworks like React, Angular.
- Connected frontend to backend APIs.
- Wrote server-side code in Node.js, Python and Java.
- Created REST APIs.
- Handled authentication and deployment.

PROJECTS

AI App Generator | Backend Engineer

MAY 2026

<https://github.com/aribah123armin/AI-App-Generator>

- Built a dynamic backend system using Node.js, Express.js, and MongoDB.
- Developed configuration-driven API generation for scalable backend architecture.
- Implemented authentication, user-scoped CRUD operations, and schema-based routing.
- Designed reusable backend logic to automate API creation and data management.

Pixel Art Maker | Full Stack Developer

MAY 2026

<https://github.com/aribah123armin/Pixel-Art-Maker>

- Designed and developed a Pixel Art Maker web application using React.
- Implemented drawing tools, frame management, and drag-and-drop frame reordering.
- Added GIF and PNG export functionality with animation support.
- Created a retro-inspired custom pixel UI influenced by classic game editors.

Code Whisper | UX & Documentation Lead

APR 2026

<https://github.com/abhinaverma97/CodeWhisper>

- Designed an AST-driven audio navigation system for accessible coding assistance.
- Implemented real-time audio feedback for syntax errors, warnings, and code boundaries.
- Built a privacy-friendly voice command module for generating programming structures.
- Integrated compatibility with screen readers including NVDA, JAWS, and Orca.
- Developed customizable accessibility settings such as verbosity, speech rate, and audio cues.
- Conducted usability testing with visually impaired users to evaluate accessibility and coding performance.

Student Course Management System | Full Stack Developer

JUN 2025

<https://github.com/aribah123armin/SCM>

- Developed a Student Course Management System with structured course and student handling features.
- Built functionality for managing courses, records, and user interactions efficiently.
- Implemented backend logic and organized project structure using GitHub for version control.
- Focused on clean architecture, maintainability, and scalable development practices.

Generative AI Teaching Assistant Chatbot | Generative AI Developer

OCT 2024

<https://github.com/aribah123armin/aribah1>

SAWIT.AI Learnathon – organized by GUVI HCL Group

- Built a Generative AI-powered teaching assistant chatbot.
- Worked on AI-assisted interaction flow and intelligent response handling.
- Explored prompt engineering and conversational AI concepts.

3D Wave Survival Game | Game Developer | PEW PEW WAVES

NOV 2025

<https://sl1nk.com/c6g03p3>

Academic Team Project:

- Co-developed a 3D action-based wave survival game in Unity.
- Implemented an enemy wave system with progressive difficulty scaling.
- Designed and integrated shooting mechanics and player controls.
- Contributed to gameplay logic, physics interactions, and UI systems.
- Published the PC version on itch.io.
- Learn more about the development journey on Medium:
<https://tinyurl.com/ywt86j9f>
- Also featured on dev.to: <https://tinyurl.com/ytzy7c9e>

VR Narrative Adventure Game | Game Developer (3D & VR) | REMNANTS OF ME

MAY 2025

<https://canva.link/qnas8vpp1nudhyq>

- Designed and developed a 3D first-person narrative-driven game in Unity.
- Implemented immersive VR integration to improve realism and interaction.
- Developed multiple maze-based levels with enemies and challenge mechanics.
- Focused on environmental storytelling and gameplay immersion.
- Designed interactive gameplay mechanics to enhance player engagement and exploration.
- Implemented enemy AI behaviors and navigation systems for dynamic encounters.
- Created immersive environments using lighting, sound effects, and atmospheric design.
- Optimized game assets and scene performance for smoother VR gameplay.
- Integrated player movement, object interaction, and first-person control systems.
- Worked with Unity physics systems to improve realism and environmental interaction.

Unity Physics Mini Projects | Unity Game Developer

NOV 2024

- Developed 7 mini-projects exploring Unity 2D and 3D physics systems.
- Implemented Rigidbody, Colliders, Forces, and Gravity mechanics.
- Experimented with collision detection and realistic gameplay interactions.
- Analyzed motion behavior for physics-based gameplay applications.

QR Code Generator Website | Web Developer

SEP 2023

Android Club, VIT Bhopal University

- Developed a responsive web-based QR code generator.
- Implemented dynamic QR code generation using frontend technologies.
- Handled user input validation and responsive UI behavior.
- Successfully completed and submitted the project within deadline.

3D Maze Environment Design | 3D Environment Designer

NOV 2024

- Designed and built three dark-themed maze environments using Blender.
- Created atmospheric lighting suitable for mystery and exploration games.
- Applied materials, textures, and environmental detailing for immersive visuals.
- Focused on level atmosphere, composition, and environmental storytelling.

Technical Skills Demonstrated Across Projects

Programming: Python, C++, C#, JavaScript
Web Development: React, Node.js, Express.js, MongoDB
Game Development: Unity, Unreal Engine, Blender
AI & Tools: Generative AI, Prompt Engineering, Accessibility Systems
Design Tools: Adobe Photoshop, Adobe Illustrator

EXTRA-CURRICULAR ACTIVITIES & LEADERSHIPS

Co-Lead of Design Team | Vitera Club, VIT Bhopal University

DEC 2024-FEB 2026

- Led and coordinated the Design Team for club events and promotional campaigns.
- Planned, organized, and assigned design tasks among team members.
- Created event posters, banners, social media creatives, and promotional materials.
- Collaborated with Social Media and Content teams to align visuals with marketing strategies.
- Managed design workflows and ensured timely completion of deliverables.
- Contributed to improving the club’s visual branding and online engagement.

Core Member – Design Team | Fine Arts Club, VIT Bhopal University

JAN 2024-APR 2025

- Designed posters, social media creatives, and promotional content for club activities.
- Maintained visual consistency across multiple event campaigns.
- Delivered creative assets within deadlines while collaborating with team members.
- Contributed to audience engagement through visually appealing content.

- Managed guest coordination and hospitality arrangements during club events.
- Supervised hospitality team members and coordinated event responsibilities.
- Organized logistics for performers, judges, and special guests.
- Assisted in ensuring smooth event execution and attendee experience.

Attendee – India Game Developer Conference (IGDC) 2025

NOV 2025

- Attended India Game Developer Conference 2025 as a Premium Pass holder.
- Gained exposure to industry-level talks, workshops, and studio showcases.
- Explored topics including game design, AI in gaming, production pipelines, monetization, and emerging technologies.
- Networked with developers, recruiters, and studio representatives.
- Gained insights into current gaming industry trends and career opportunities.

EDUCATION

Bachelor of Technology

2023-2027

Vellore Institute of Technology, Bhopal

- Computer Science and Engineering (Specialised in Gaming Technology)
- Current CGPA: 8.22/10

Higher Secondary Certificate

2019-2021

KC High School, Patna, Bihar

Secondary School Certificate

2009-2019

Ideal Public School, Howrah, West Bengal

Percentage: 90%

KEY SKILLS

- Python
 - C++
 - C#
 - JavaScript
 - UI/UX Design
- React.js
 - Node.js
 - Express.js
 - MongoDB
 - REST API Development
- Unreal Engine
 - Blender
 - Unity Game Engine
 - Full Stack Development
 - Backend Development
- VR Development
 - AR Development
 - Generative AI
 - Prompt Engineering
 - Git & GitHub

AI & PROBLEM-SOLVING SKILLS

- AI Solution Design
 - Proposal Strategy
 - Analytical Thinking
 - Technical Writing
- System Design
 - Workflow Automation
 - Configuration-Driven Architecture
- Accessibility-Focused Development
 - Research & Documentation

DESIGN SKILLS

- Graphic Design
 - 3D Environment Design
- Game Design
 - 3D and 2D Character Design
- Level Design
 - Adobe Photoshop
 - Adobe Illustrator
- Visual Storytelling
 - Figma

STRENGTHS

- Strong problem solving and analytical thinking
- Fast learner with adaptability to new technologies
- Creative mindset with both technical and design skills
- Team collaboration and leadership experience
- Good communication and presentation abilities
- Ability to manage multiple projects and deadlines
- Detail oriented and organized in development workflows
- Strong interest in AI, innovation, and emerging technologies
- Experience turning ideas into working prototypes
- Self motivated and proactive learner

WEAKNESSES

- I can become deeply focused on technical implementation, so I actively work on maintaining broader project prioritization
- I used to hesitate when delegating tasks in team projects because I preferred handling things myself, but leadership roles helped me improve team coordination

LANGUAGES

- English
- Japanese
- Hindi
- Bengali
- Arabic

SOCIALS AND PORTFOLIOS

- LinkedIn : www.linkedin.com/in/aribah-armin-2a5715282
- 3D Modelling and Design Portfolio: <https://aribahportfolio.my.canva.site/>
- GitHub: <https://github.com/aribah123armin>
- IGDC 2025 Report link: <https://tinyurl.com/2tvs435c>

HOBBIES

Editing Videos, Playing Chess, Sketching and Doodling, Designing Posters, Journaling, Writing Short Stories, Making Animations, Playing Badminton, Learning new languages.

CERTIFICATES

Networking Devices and Initial Configuration

Cisco Networking Academy

Issued Apr 2026

Credential ID e50b9c79-fd9f-4972-8253-8a2bef296970

Networking Basics

Cisco Networking Academy

Issued Apr 2026

Credential ID 4765ec1a-9784-4117-a510-98d17fd55640

Graphic Designing Internship

CollegeTips.in

Issued May 2025

Full Stack Development Internship

Imarticus Learning

Issued Jul 2025

Making Your First Virtual Reality Game By Coursera

University of London

Issued Dec 2024

Credential ID 3CVT4B4D5URW

AI and ML

Vellore Institute of Technology (VIT)

By VITyarthi

Fundamentals of Generative AI

South Asian Women in Technology (SAWiT)

Issued Oct 2024

Credential ID 5Y76574361P867Tjq2

MATLAB Onramp Certified

MathWorks

Issued Aug 2023
