Summary

Pre-final-year Computer Science and Engineering (Gaming Specialization) undergraduate with strong proficiency in C#, Python, C++, web development, and game development. Experienced in building 2D/3D games using Unity, implementing VR features, and developing full-stack and AI-based applications. Passionate about game design, graphic design, and emerging technologies, including AI and Machine Learning. Eager to leverage technical expertise and creative problem-solving skills to contribute effectively in dynamic tech-driven environments.

Experience

Full Stack Developer, Imarticus. Remote

May 2025 — Jun 2025

Implemented a console-based Java application called Campus Course & Records Manager (CCRM) that

lets an institute manage: Students, Courses, Grades & Transcripts and File Utilities.

Designed responsive UI using HTML, CSS, and JavaScript.

Worked with frameworks like React, Angular.

Connected frontend to backend APIs.

Wrote server-side code in Node.js, Python and Java.
Created REST APIs.
Handled authentication and deployment.

Graphic Designer, CollegeTips.in. Bhopal

Apr 2025 – May 2025

Designed Digital Contents.
Made Animations on various topics.
Applied 3D designing to promotional content.

Generative AI Developer, SAWIT.AI Learnathon – GUVI HCL Group. Remote

Oct 2024 – Oct 2024

Build a Generative AI-powered teaching assistant chatbot.

Game Developer (Team Project), Team-Based Academic Project.

Co-developed a 3D action-based wave survival game in Unity
Implemented enemy wave system with progressive difficulty scaling
Designed and integrated shooting mechanics and player controls
Contributed to gameplay logic, physics interactions, and UI elements

Game Developer (3D & VR), Self-Initiated Project.

Designed and developed a 3D First-Person Perspective (FPP) narrative-driven game in Unity.
Implemented immersive VR integration to enhance player interaction and realism.
Developed multiple levels featuring maze-based exploration, enemies, and challenge mechanics.

Unity Game Developer (Physics Projects), Self-Initiated Project.

Developed 7 mini-projects exploring Unity 2D and 3D physics systems
Implemented Rigidbody, Colliders, Forces, and Gravity mechanics
Experimented with collision detection and physics-based interactions
Analyzed realistic motion behavior for gameplay applications

Co-Lead of Design Team, Vitera Club, VIT Bhopal University.

Dec 2024 – Current

Led and coordinated the Design Team for club events.
Planned and assigned design tasks to team members.
Created event posters, social media creatives, banners, and promotional materials.
Collaborated with the Social Media and Content teams to align designs with marketing strategies.

Core Member of Design Team, Fine Arts Club, VIT Bhopal University.

Jan 2023 – Apr 2023

Designed posters and social media creatives.
Ensured visual consistency and timely delivery.

Co-lead of Hospitality Team, Bengali Cultural Club, VIT Bhopal University.

Sep 2022 – Dec 2022

Managed guest coordination and event hospitality arrangements.
Led and supervised hospitality team members during club events.
Coordinated logistics for performers, judges, and special guests.

Web Developer (Project Participant), Android Club, . VIT Bhopal University.

Sep 2023 – Sep 2023

Developed a web-based QR code generator as part of a programming assignment.
Implemented dynamic QR code creation using frontend technologies.
Ensured responsive design and proper user input handling.
Successfully completed and submitted the project within deadline.

3D Environment Designer, Self-Initiated Project.

Nov 2024 – Dec 2024

Designed and built 3 dark-themed maze environments using Blender.
Created atmospheric lighting suitable for mystery game settings.
Applied materials, textures, and environmental detailing.
Optimized models for potential game engine integration.

Education

VIT Bhopal University, BTech, Bhopal,
Madhya Pradesh. Computer Science and
Engineering
(Specialised in Gaming Technology)

2023 -- 2027

KC High School , HSC, Higher Secondary
Certificate, Patna, Bihar.

2019 – 2021

Ideal Public School, SSC, Secondary
School Certificate, Howrah, West
Bengal.

2009 – 2019

Skills

C++ Programming

C# Programming

Python Programming

Full Stack Web Development

Graphic Designing

Java Programming

Unity Game Engine

Unreal Game Engine

Godot Game Engine

Languages

English 
Japanese 
Hindi 
Bengali 
Spanish 

Skills

UI UX 
3D Modelling and Animation in Blender 
AI and ML Integration 

Certificates

1. Certificate of completing **Full Stack Development Summer Internship** (May-June 2025) organised by IMARTICUS LEARNING.
2. Certificate of completing **AWS Certification Course** by Intellipaat Academy.
3. **Graphic Designing** Summer Internship Completion Certificate by CollegeTips.in
4. **Coursera certificate:** Certificate for Successful completion of Making Your First Virtual Reality Game, an online non-credit course authorized by University of London, Goldsmiths, University of London and offered through Coursera.
5. Certificate of completing **Fundamentals of AI and ML Course** organised by vityarthi.
6. Certificate for successfully completing **SAWiT.AI Learnathon Program** (the Fundamentals of Gen AI).
7. **MATLAB Onramp Certified**

Hobbies and Interests

Editing Videos , Sketching and Doodling , Designing Posters, Journaling , Writing Short Stories , Making Animations
